

PREMIUM AGRICULTURAL RUBBER TRACKS AND MID-ROLLERS

TRACTORS • COMBINES • GRAIN CARTS

Premium Natural Rubber Compounds

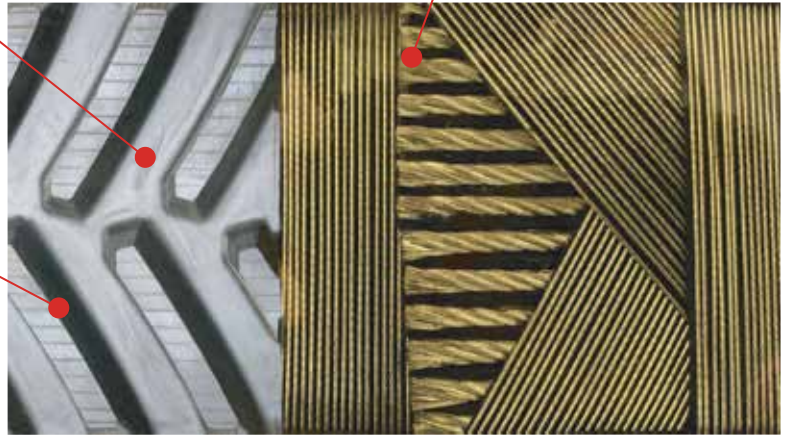

TankTuÖ uses only premium quality materials and solutions resulting in a rubber track with **5x** durability.

Strongest Cable System

Up to 6.5mm High Tensile Main Cable, four additional steel cable layers plus two additional fabric layers enables TankTuÖ to achieve remarkable strength.

Specially Designed Tread Bars

Our tread bars are designed to increase traction and clean out while reducing ground disturbance and vibration.

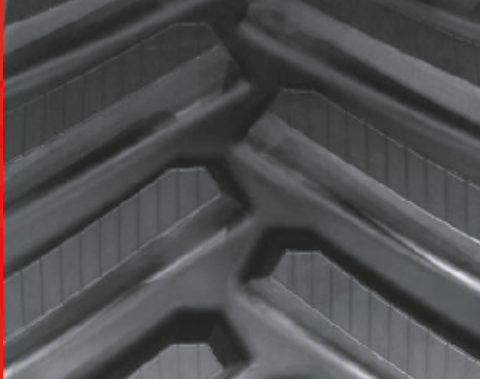

Our TankTuÖ Mid-Rollers are now available for a wide range of machines.

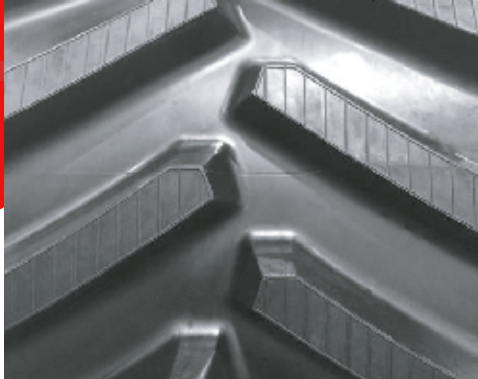

- New Mid-Rollers
- No Core Exchange
- Injection Molded
- Heat Resistant
- Natural Rubber
- Extend Track Life
